

STAFF ONBOARDING ROADMAP

30 · 60 · 90 Day Integration Programme
For All Outlet Roles — Cook · Cashier · Supervisor

Document Code	QT-HR-OPS-001
Version	1.0
Effective Date	May 2025
Prepared By	YOB, Quackteow Group
Aligned To	QT-SOP-OPS-002 v3.0
Scope	All Outlets – TTDI, 1 Utama, Merdeka, PJ, Hartamas
Classification	CONFIDENTIAL – Internal Use Only

How to Use This Roadmap

This 30-60-90 day onboarding roadmap translates Quackteow's SOP (QT-SOP-OPS-002 v3.0) into an actionable, role-specific integration plan for every new hire. It is designed to work in three modes:

Mode	How	Who Uses It
Paper Checklist	Print and work through each section. Supervisor signs off completed items.	Supervisor + new hire
Notion / Trello	Each phase becomes a Board. Each task card carries owner, due date, and sub-tasks from the 'How' column.	GM + Supervisor
Google Sheets	Map each row directly. Use conditional formatting to colour-code by phase and owner.	EXCO + GM

Owner Key

Code	Owner	Primary Responsibility
EXCO	Executive Committee	Final approval, policy, compensation decisions
GM	General Manager / PA	Onboarding coordination, competency sign-off, performance reviews
SUP	Outlet Supervisor	Daily training, checklist supervision, real-time coaching
HIRE	New Hire	Completing self-directed tasks, reviewing SOP, asking questions
ALL	All Parties	Shared responsibility — completion requires all parties

Phase 0 — Preboarding

Before Day 1 | Triggered immediately after offer accepted

Preboarding is the period between offer acceptance and Day 1. Research shows that new hires who receive structured preboarding are 58% more likely to stay beyond 3 months. At Quackteow, this phase ensures the new hire arrives informed, uniformed, and psychologically ready — not confused.

Preboarding Checklist

	Task	Why It Matters	Owner
☐	Send offer letter and contract for signing	Formalises employment. Creates legal clarity before Day 1.	EXCO
☐	Collect required documents (IC, bank account, EPF number, tax number)	Enables payroll setup. Malaysia Employment Act requirement.	GM
☐	Set up payroll and banking details in system	New hire must receive their first pay on time. Late first pay damages trust immediately.	GM
☐	WhatsApp the new hire: 'Welcome to Quackteow' message from EXCO	Sets the cultural tone. Shows the new hire they are expected and valued — not just processed.	EXCO
☐	Share the outlet address, parking info, dress code, and report-in time	Eliminates Day 1 anxiety about logistics. A stressed first impression is hard to undo.	GM
☐	Prepare uniform in correct size	Uniform is part of brand identity (SOP §3.3). Arriving without one on Day 1 is a poor start.	SUP
☐	Assign a 'Buddy' from existing staff at the outlet	A peer buddy reduces social isolation in the first week — especially important for non-Malay speaking staff.	SUP
☐	Brief the buddy: their role, what to expect, what NOT to do (no hazing, no 'trial by fire')	Buddies who are not briefed default to informal culture, which may contradict SOP standards.	SUP

	Task	Why It Matters	Owner
☐	Create POS user account and assign access level	<i>System access on Day 1 — not Day 3. Waiting for access wastes training time.</i>	GM
☐	Prepare new hire's workstation / cooking station	<i>Physical readiness signals: 'We were expecting you'. Unprepared stations signal disorganisation.</i>	SUP
☐	Print and laminate new hire's copy of Appendix A (Cooking Sequence) and Appendix B (Portion Card)	<i>Reference materials should be physical and at-station from Day 1. Not PDF links.</i>	SUP
☐	Print Training Sign-Off Form (Appendix E of SOP) — ready for Week 1	<i>Having the form ready prevents supervisors from improvising assessments.</i>	GM

Phase 1 — Orientation

Week 1 (Days 1–7) | Foundation building

Week 1 is not about productivity. It is about foundation. A new hire who is rushed into cooking or cashiering before they understand Quackteow's standards becomes a consistency risk — and fixing bad habits is harder than building good ones from the start.

Day 1 — First Impressions (All Roles)

Why Day 1 matters:

The first day sets the psychological contract between the new hire and the brand. Quackteow is a fast-paced, precision-driven environment. Day 1 is the only opportunity to establish that this is a place with standards — not just a hawker stall.

	Task	How (Step-by-Step)	Owner
☐	Warm welcome by Supervisor at outlet entrance	SUP greets by name. Introduce to the team personally. Walk the full outlet before going anywhere near the station.	SUP
☐	Tour of the outlet: kitchen, storage, chiller, POS, customer area, toilets	Point out: where the SS bowl lives, where Quack Sos is stored, where the temperature log is kept. Make it specific.	SUP
☐	Brand values conversation (not a lecture — a conversation)	Ask: 'What do you know about char kuey teow?' Then explain Quackteow's origin, the Quackmaster system, and the 'no eye-balling' culture.	SUP
☐	Issue uniform, confirm fit, explain wear standards (SOP §3.3)	Walk through SOP §3.3 line by line. Ask them to put it on. Photograph for file.	SUP
☐	SOP orientation: walk through Sections 3 and 4 together	Do not hand the SOP and walk away. Read §3.1 (portions) and §4 (food safety) aloud. Ask comprehension questions.	SUP
☐	Introduce the Buddy — first meal together (outlet provides)	The buddy takes the new hire for a meal at the outlet. They eat together, not separately. This is funded by the outlet.	SUP
☐	End-of-Day 1 check-in: 'How are you feeling? What was confusing?'	Five-minute conversation. Log the answers. These are your early warning signals.	SUP

Days 2–3 — Observation Phase (All Roles)

The new hire does not touch food, the POS, or cash. They shadow. They watch. They ask questions. This is protected time.

	Task	How (Step-by-Step)	Owner
☐	Shadow experienced cook for full service (Kitchen role)	New hire stands beside the cook for the entire shift. No cooking. They count portions aloud with the cook for each order.	SUP

	Task	How (Step-by-Step)	Owner
☐	Shadow cashier for full service (FOH role)	New hire stands beside cashier. They read back each POS entry before the cashier confirms. Observe the complaint response (SOP §12.1).	SUP
☐	Observe the full opening checklist being completed	Supervisor walks through the checklist out loud — explaining WHY each item matters, not just ticking it.	SUP
☐	Observe the full closing checklist and cash reconciliation	New hire watches the full end-of-day reconciliation (SOP §11.3). Ask: 'What would happen if the variance was RM30?'	SUP
☐	Observe temperature log completion (SOP §4.2)	Show how to use the probe thermometer. Explain what a breach looks like and what to do.	SUP
☐	End-of-Day 2 and 3 debrief: 'What did you observe that surprised you?'	This surfaces assumptions and corrects misconceptions before the hire touches anything.	SUP

Days 4–7 — Assisted Practice Phase

The new hire performs tasks under direct supervision. The supervisor observes every action and corrects in real time — with the reason, not just the correction.

	Task	How (Step-by-Step) + Why	Owner
☐	Cook first plate under direct supervision (Kitchen)	Supervisor stands beside, talking through each step. Stop if the egg is not pre-cracked into SS bowl. Restart. WHY: one contaminated egg poisons the dish and a customer.	SUP
☐	Process first 10 POS transactions under supervision (FOH)	Supervisor watches every keystroke. Correct any shortcut behaviour immediately. WHY: POS errors become reconciliation problems at closing.	SUP
☐	Complete opening checklist independently (supervisor observing silently)	No prompting. Supervisor only intervenes for safety. Debrief after. WHY: the checklist must become habit, not a reminder system.	SUP
☐	Practice speed targets: cook to 90-second target (Kitchen)	Time each plate with a phone timer. Log the result. Aim for 3 consecutive plates within target before end of Week 1.	SUP
☐	Practice complaint response script (SOP §12.1) via role-play	Supervisor plays an unhappy customer. New hire uses the 5-step script. Feedback after each run. WHY: a real complaint is not the time to learn.	SUP
☐	Complete end-of-day cash reconciliation under supervision (FOH)	New hire counts the cash. Supervisor checks. Discuss any variance. WHY: cash handling errors above RM20 escalate to GM (SOP §11.4).	SUP
☐	Complete HACCP temperature log entry independently	Supervisor checks the entry. Correct any errors. WHY: unsigned or missing logs are a regulatory compliance failure.	SUP
☐	End-of-Week 1: Competency check against Appendix E (Training Sign-Off Form)	Supervisor formally assesses all items. Pass = proceed. Fail = identify gaps and extend practice. GM signs the form.	GM

Week 1 SMART Milestone

✓ Day 30 Gateway — Must achieve before probation continues:			
Goal	Specific Target	Measurement	Verified By
Portion accuracy	Correctly identify and prepare all 10 ingredients from §3.1 without referencing the card	Supervisor quiz — 10/10 pass mark	SUP + GM
SS Bowl rule	Zero instances of egg cracked directly into wok across all observed practice	Supervisor observation log	SUP
SOP awareness	Can correctly explain what to do in 3 randomly selected escalation scenarios from §19.2	Verbal assessment by SUP	SUP
Checklist independence	Completes full opening OR closing checklist correctly without prompting	Supervisor observation	SUP

Phase 2 — 30-Day Integration

Days 8–30 | Independent operation under guidance

By Day 8, the new hire operates independently — but the supervisor is still watching. The 30-day window is about building speed, accuracy, and consistency. Quality must not decrease as independence increases.

Days 8–30 Checklist

	Task	Why It Matters	Owner
☐	Cook independently during off-peak periods first — supervisor monitors from a distance	Removes the training wheels in a controlled environment before peak pressure hits.	SUP
☐	Achieve 3 consecutive service shifts at or above speed KPI target (60–90 sec/plate)	Speed consistency — not speed one day — is the standard. SOP §16.2.	SUP
☐	Zero wrong orders in a full service week	Order accuracy ≥ 95% is the minimum operational KPI (SOP §16.2). Week 2 onwards, this is non-negotiable.	SUP
☐	Complete temperature log independently and correctly every shift	Compliance habit must be formed in the first month — not corrected in month three.	SUP
☐	Handle first real customer complaint using the §12.1 script	Supervisor observes but does not intervene unless safety is at risk. Debrief immediately after.	SUP
☐	Complete solo end-of-day cash reconciliation (FOH) with variance within RM5	SOP §11.4 variance policy. The RM5 threshold is the acceptable range.	SUP
☐	Understand and explain the KPI bonus system to the supervisor (verbal)	If the hire cannot explain how bonuses work, they cannot be motivated by them (SOP §16.4).	HIRE
☐	Par level check: knows when stock is at par and how to submit a reorder	Stock awareness is a shared responsibility. Par levels are in SOP §5.3.	SUP
☐	Peak period protocol — first peak shift under supervision (SOP §13)	Peak is where consistency	SUP

	Task	Why It Matters	Owner
		<i>breaks. The hire must experience a real peak with the supervisor present before their first solo peak.</i>	
☐	Social media policy briefing and acknowledgement sign-off (SOP §18.4)	<i>Non-negotiable. A social media incident from an uninformed new hire reflects on the brand.</i>	GM
☐	Day 15 — Mid-point check-in: supervisor reviews first 2 weeks	<i>Structured conversation. Not a performance review — a 'what do you need?' conversation.</i>	SUP
☐	Day 30 — Formal 30-day review with GM (see milestones below)	<i>First formal milestone. Determines whether hire proceeds, extends probation, or requires intervention.</i>	GM

30-Day SMART Milestones

By Day 30, the new hire must demonstrate independent operational competency:				
Role	SMART Goal	How Measured	By When	Owner
All Roles	Zero food safety violations — correct SS bowl usage, FIFO, temperature log completion on every shift	<i>Supervisor observation log — 0 recorded violations</i>	Day 30	SUP + GM
Kitchen	Average plate cooking time at or below 90 seconds (TTDI/PJ/Hartamas) or 3 minutes (1 Utama) across 5 consecutive service sessions	<i>Timed by supervisor — logged in daily notes</i>	Day 30	SUP
FOH / Cashier	Cash reconciliation variance within RM5 for 10 consecutive closing sessions	<i>Daily reconciliation sheets — RM5 threshold</i>	Day 30	SUP
FOH / Cashier	Order accuracy rate at or above 95% across the 30-day period	<i>POS wrong order count ÷ total orders</i>	Day 30	GM
All Roles	Completes opening and closing checklists without supervisor prompting for 10 consecutive shifts	<i>Supervisor check — binary pass/fail</i>	Day 25	SUP

Day 30 Manager Check-In Agenda

Agenda Item	GM Discussion Guide	Duration
Review SMART milestone results	Walk through each metric. Be specific — not 'you're doing well', but 'your reconciliation variance averaged RM3 — that's within target'.	10 minutes
New hire self-assessment	Ask: 'What are you most confident in? What still feels uncertain?' Listen more than you speak.	10 minutes
SOP knowledge check	3 random questions from the SOP. Example: 'What do you do if the chiller reads 7°C at opening?' or 'A customer complains the wait was too long — first 3 words out of your mouth?'	5 minutes
Probation outcome decision	Pass: confirm in writing. Extend: specify the gaps, the timeline, and the criteria to pass. Terminate: follow SOP §18.3 disciplinary process.	5 minutes
Set goals for the next 30 days	Introduce the 60-day targets. Agree on one stretch goal the hire chooses themselves — ownership drives performance.	5 minutes

Phase 3 — 60-Day Consolidation

Days 31–60 | Consistency, ownership, and culture

The 60-day window is about moving from 'doing the job correctly' to 'owning the job'. The hire should no longer need supervision for standard tasks. Focus shifts to peak performance, team contribution, and the first signs of leadership potential.

Days 31–60 Checklist

	Task	Why It Matters	Owner
☐	Complete first unsupervised peak period service (supervisor on standby, not on floor)	The hire must experience full ownership of a peak shift. Supervised peaks create false confidence.	SUP
☐	Achieve KPI bonus Level 2 (Good Performance) for the outlet in at least one week	Connecting individual performance to team outcomes is the key culture shift of Month 2.	SUP
☐	Lead the opening checklist as the most senior staff present at least once	Leadership readiness is tested by giving small authority, not by waiting for the perfect moment.	SUP
☐	Demonstrate equipment fault reporting: identify and log a real or simulated fault (SOP §14.2)	Equipment awareness is an operational safety skill, not an advanced skill. Month 2 is the right time.	SUP
☐	Contribute to at least one reorder to Quackmaster: count stock, identify par breach, submit order	Supply chain awareness prevents stockouts. If the hire has never submitted an order, they cannot do it in a crisis.	SUP
☐	Shadow or assist in one staff onboarding activity (buddy role)	Teaching is the highest form of learning. The hire is now experienced enough to support a newer colleague.	SUP
☐	Complete full 86 procedure simulation: identify unavailable item, update POS, brief team, log it (SOP §15.2)	86 situations happen without warning. Practising the procedure in a low-stakes moment prevents panic in a real one.	SUP

	Task	Why It Matters	Owner
☐	Review and acknowledge the social media policy in writing (if not completed in Day 30)	Non-negotiable before end of Month 2.	GM
☐	Day 45 — Mid-point check-in with Supervisor (15 minutes)	Informal pulse-check. 'What's going well? Where do you want to improve?' Not a review — a conversation.	SUP
☐	Day 60 — Formal 60-day review with GM	Second milestone. Focuses on consistency and culture fit, not just task performance.	GM

60-Day SMART Milestones

By Day 60, the new hire demonstrates consistency without supervision and begins contributing to team performance:				
Role	SMART Goal	How Measured	By When	Owner
All Roles	100% temperature log completion rate across all shifts in Days 31–60 — zero missed logs	Daily report log — binary compliance	Day 60	GM
Kitchen	Achieve 3 full service sessions where the outlet hits its daily plate target — with this hire as the primary cook	Daily plate count vs target from daily report	Day 60	SUP
FOH	Zero wrong order escalations in Days 31–60 (i.e., order accuracy stays ≥ 95% independently)	POS wrong order count — weekly review	Day 60	SUP
All Roles	Successfully complete the full 86 procedure at least once (real or simulated) with no errors	SUP sign-off on the 86 log entry	Day 55	SUP
All Roles	Participate in one Week 5–8 peak shift as the most senior floor staff — supervisor off-floor	Supervisor debrief after the shift — pass/flag	Day 60	SUP + GM

Day 60 Manager Check-In Agenda

Agenda Item	GM Discussion Guide	Duration
-------------	---------------------	----------

60-day KPI review	Present the data: plate counts, reconciliation logs, temperature log compliance, complaint log. Let the numbers lead.	10 minutes
Culture fit assessment	Ask: 'What do you like most about working at Quackteow? What would you change if you could?' Responses reveal alignment or risk.	10 minutes
Career path conversation	Ask: 'Where do you want to be in 6 months?' Introduce the concept of Supervisor track if potential is clear.	10 minutes
Set 90-day goals together	The hire proposes their own 90-day goal. GM refines it to SMART. Hire owns it. This is the first act of self-leadership.	5 minutes

Phase 4 — 90-Day Performance Review

Days 61–90 | Full integration, contribution, and evaluation

Day 90 is not the end of onboarding — it is the beginning of employment. By this point the hire should be fully independent, contributing to team KPIs, and showing early signs of what kind of Quackteow team member they will be long-term.

Days 61–90 Checklist

	Task	Why It Matters	Owner
☐	Operate as a fully independent team member for the entire 30-day period	No structured supervision. The supervisor leads, not monitors. This is the test of true integration.	SUP
☐	Contribute to the outlet reaching KPI L2 (Good Performance) for at least 3 full weeks	Individual performance must translate to team outcomes. SOP §16.4 bonus criteria.	ALL
☐	Complete at least one inventory count and par level reconciliation independently	Operational ownership extends beyond cooking and cash. Supply awareness is a team skill.	HIRE
☐	Demonstrate at least 3 unprompted SOP-correct behaviours observed by supervisor (e.g., FIFO, SS bowl, correct 86 procedure)	The transition from 'following rules' to 'living the standards' is the cultural graduation moment.	SUP
☐	If Supervisor track: lead a full shift briefing for the team at least once	Leadership readiness is tested in action. A briefing is the lowest-risk leadership act.	SUP
☐	Complete Day 90 self-assessment form before the formal review	Self-awareness is a professional skill. The hire who can accurately evaluate themselves is the hire worth developing.	HIRE
☐	Day 90 — Formal review with GM and EXCO observation	This is the graduation from probation to confirmed employment. Treat it with the gravity it deserves.	GM + EXCO
☐	Confirm employment in writing — contract renewal or permanent appointment letter	Certainty of employment is a basic psychological need. Do not delay	EXCO

	Task	Why It Matters	Owner
		this communication.	
☐	Discuss compensation review if applicable (SOP §18.1 quarterly review cycle)	The hire who has met all milestones has earned the right to a structured compensation conversation.	EXCO + GM

90-Day SMART Milestones

By Day 90, the new hire is a fully contributing Quackteow team member:				
Role	SMART Goal	How Measured	By When	Owner
All Roles	100% shift attendance with zero unexplained absences across Days 61–90	Attendance log — GM review	Day 90	GM
Kitchen	Achieve personal plate speed KPI on every service shift in Days 61–90 — no regressions	Supervisor daily note — time spot-checks	Day 90	SUP
FOH	Zero cash variance above RM5 across all 30 closing sessions in Days 61–90	Daily reconciliation sheets	Day 90	SUP
All Roles	Receive zero food safety warnings or temperature log failures across Days 61–90	Daily report and temperature log audit	Day 90	GM
All Roles	Outlet achieves KPI L2 (Good Performance) for minimum 3 weeks in Days 61–90 — with this hire contributing	Weekly KPI outcome from daily reports	Day 90	GM + EXCO

Day 90 Formal Review Agenda

Agenda Item	GM / EXCO Discussion Guide	Duration
Full 90-day data review	Present the complete performance record: KPIs, compliance logs, complaint log, attendance, cash reconciliation. This is an evidence-based review, not an opinion review.	15 minutes
New hire self-assessment review	The hire presents their self-assessment. GM and EXCO listen first. Then compare to the data. Gaps are development areas — not failures.	10 minutes
Cultural alignment assessment	Has the hire embodied Quackteow standards independently — not because they were watched? Ask the supervisor for one specific example.	5 minutes

Employment confirmation	Pass: confirm employment, issue letter, discuss compensation review. Extend: rare — specific reason required. Terminate: follow §18.3.	5 minutes
6-month goals — set together	Introduce the quarterly review cycle (SOP §18.1). Agree on the hire's 6-month development goal. Supervisor track, cross-outlet experience, or specialisation.	5 minutes

Feedback Loops & Continuous Improvement

Feedback is the engine of onboarding improvement. Each of the loops below serves a different purpose — the new hire survey surfaces what management cannot see; the supervisor debrief surfaces what the hire cannot articulate. Together they build a complete picture.

Structured Feedback Schedule

Timing	Method	Audience	Key Questions	Owner
Day 1 End	Verbal check-in (5 min)	New Hire	What was confusing today? What are you worried about for tomorrow?	SUP
Day 3	Buddy debrief (10 min)	Buddy + Hire	What has the buddy observed? Is the hire asking questions or staying quiet?	SUP
Day 7 (Week 1 End)	Competency sign-off (Appendix E) + verbal	SUP + GM + Hire	Which competencies passed? Which need more time? Is the hire on track?	GM
Day 15	Mid-point check-in (15 min)	SUP + Hire	What's going well? What's still hard? Any concerns about the team culture?	SUP
Day 30	Formal review + hire survey	GM + Hire	See Day 30 agenda. Survey: rate the onboarding process itself (5 questions below).	GM
Day 45	Informal pulse check (10 min)	SUP + Hire	Is the hire engaged? Signs of disengagement: quiet, late, avoids peak shifts.	SUP
Day 60	Formal review + hire survey	GM + Hire	See Day 60 agenda. Survey: probe culture fit and career intent.	GM
Day 90	Formal review + self-assessment + exit survey from onboarding	GM + EXCO + Hire	Full evaluation. Survey: rate the 90-day programme quality. This data improves the next hire's experience.	GM + EXCO

New Hire Survey — Standard Questions

Administered at Day 30, Day 60, and Day 90. Keep it to 5–7 questions. Use a 1–5 rating scale plus one open text box per question.

#	Question	What It Diagnoses
1	How clear were the expectations of your role on Day 1? (1=Very unclear, 5=Crystal clear)	Preboarding and Day 1 communication quality
2	How confident do you feel performing your core tasks without supervision? (1=Not at all, 5=Very confident)	Training effectiveness — if low at Day 30, extend practice period
3	How well do you understand Quackteow's standards and why they exist? (1=Not at all, 5=Completely)	Cultural absorption — not just compliance, but understanding
4	How supported do you feel by your supervisor and team? (1=Isolated, 5=Very supported)	Risk of early attrition — low score here is the #1 predictor of a Month 2 exit

5	What one thing could Quackteow do better to help new staff succeed faster?	<i>Open feedback — treated as a genuine suggestion, not a formality</i>
---	--	---

Onboarding Process Improvement Protocol

Survey results are not filed and forgotten. This is the improvement loop:

- GM reviews all survey results within 48 hours of each review date
- Any question averaging below 3.5/5 across 3 consecutive new hires triggers a review of that specific onboarding step
- GM proposes an amendment to the relevant SOP section or this roadmap
- EXCO approves the amendment — version the document accordingly
- Revised process tested with the next new hire — survey result tracked to confirm improvement

Key Principle:

The onboarding process is itself a product. It has a feedback loop, a version history, and an owner. Treat it with the same rigour as the cooking SOP — because the people who follow the cooking SOP are only as good as the process that trained them.

Appendix — Project Management Tool Import Guide

Notion Setup

Create a database called 'Quackteow Onboarding'. Add these properties:

- Phase (Select): Preboarding / Week 1 / Day 30 / Day 60 / Day 90
- Owner (Select): EXCO / GM / SUP / HIRE / ALL
- Status (Select): Not Started / In Progress / Completed / Blocked
- Role (Multi-select): Cook / Cashier / Supervisor
- Due Date (Date): Calculate from hire start date
- Why It Matters (Text): Copy directly from the 'Why It Matters' column in each checklist
- How-To Notes (Text): Copy from the 'How' column — add SOP section reference as a linked database

Trello Setup

Create a board per hire. Add lists:

- List 1: Preboarding
- List 2: Week 1 — Orientation
- List 3: Day 8–30
- List 4: Day 31–60
- List 5: Day 61–90
- List 6: Completed

Each card = one checklist item. Use labels for owners (Red = EXCO, Blue = GM, Green = SUP, Orange = HIRE). Add due dates. Attach the SOP section reference in the card description.

Google Sheets Setup

Columns: Phase | Task | Why It Matters | How (SOP Reference) | Owner | Role | Due Date | Status | Verified By | Sign-Off Date

Use conditional formatting: Green = Complete, Yellow = In Progress, Red = Overdue. Filter by Owner to generate individual task lists per person.
